

## Our Core Values

### Knowledge

---

### Energy

---

### Potential

---

### Resurrection

---

#### Knowledge

There is a saying that “necessity is the mother of all inventions” but invention is impossible if we don’t have the knowledge of creating that thing which can fulfil our needs.

#### Energy

Energy is passion with purpose. Energy greatly influences one’s character and principles. When we understand our purpose in life and seek to make a meaningful impact on others, energy can be a significant driving force in our life.

#### Potential

We have more potential than we think, we believe that we will never know our full potential unless we keep challenging ourselves and pushing beyond our own self-imposed limits.

#### Resurrection

We aim to be a positive, creative, hope-filled learning community where values are shared, and the sacred dignity of each person is nurtured through knowledge, energy and potential.

#### Insignia

The Motto of Shri G.P.M. Degree College is

"Nirmal Sneha Uttam Sevadharm" - that we practice to internalize each day through every activities of our college.

- The Sun signifies life with a bright future and abundant vital energy. Thus leading to illuminate a successful home and society.
- The Earth signifies groundedness, stability, potential and stillness, the most important personalities of a life . It is constant reminder to ground us in our practices as we move through life. Thus leading to love and respect all traditions and culture.
- The Wheat signifies abundance, life and fertility. Thus leading to growth and hard work.
